1200 - 1220 Hrs	Special Address	<b>Dr Omkar Rai</b> Director General Software Technology Parks of India

**1220 - 1315 Hrs: Session 1: Learning to Fly – Innovation by Teens**

*When many of us were in our teens, summer projects and work for science fairs meant visit to a photocopier: copy, cut and paste photos and graphics on colorful presentation boards. Our hobbies translated to playing cricket (or its equivalent, baseball they call it), watching it on a TV, or playing it on a computer. The answer mostly is a function of our time-and-space coordinates. While much hasn't changed today, we come across teenagers with creative, scientific minds that are building extraordinary devices, revolutionary materials and renewable technologies that might just dent the universe and change the planet for better. What's fascinating about these development is that the teens @ innovation are not doing it for a science projects or an international Olympiad. They are simply creating -- the prototypes -- a better world for themselves. And, the trophies are coming in the form of seed funds and venture capital. In this session, we proudly showcase and understand the phenomenal Gene Why -- and Why Not from across the world that's driving the Gen Y.*

1220 Hrs	Introduction by Session Moderator	<b>Ms Vidya Laxman</b> Director -- Technology Tesco Bengaluru Pvt Ltd
	Speakers	<b>Mr Ajay Gopi</b> Fellow, Ashoka India  <b>Mr Harsh Songra</b> My Child App/ We included  <b>Mr Siddharth Pandiya</b> Debate for Change  <b>Ms Garvita Gulhati</b> Founder, Why Waste?

**1315 Hrs Lunch**

## 1415 - 1515Hrs: Session – 2: Rise of machines and Future of Human Labour

*The rise of machine-driven intelligence solutions impacts the human labour in various industries with varying degrees of scale. The machine-driven autonomous systems and assisted decision-support systems challenge the low-value adding repetitive jobs that are on one end of the work spectrum. But at the same time, intrude into the high value diagnostic-driven domain specialization arenas such as medicine and environmental sciences. A hybrid work force of machines and humans gives rise to an existential question of the future of human labour and intelligence. The session explores the trends, opportunities and challenges for human labour.*

1415 Hrs	Opening Remarks by Session Moderator	<b>Mr K R Sanjiv</b> Senior Vice President & CTO Wipro Limited
	Speakers	<b>Mr Mrinal Pai</b> Cofounder Skylark Drones  <b>Ms Arati Deo</b> Managing Director Artificial Intelligence Accenture Technology  <b>Dr Piyush Mishra</b> Technology Leader – Food Security Tata Services Ltd.

## 1515 - 1615 Hrs: Session – 3: All systems digital – A cashless move

*The digital economy is disrupting the analog world by moving cash into the digital currency form. This is driving rural India embrace the digital world with mobile phone, digital wallet and biometric identity. This opens an under-served segment to main stream marketing and consumerism while providing the efficiency in the last mile for health, education and financial services. The session explores the contours of this new India both in terms of aspiration and anxiety for celebrating inclusion while losing anonymity.*

1515 Hrs	Opening Remarks by Session Moderator	<b>Mr Satish Janardhanan</b> Financial Services Accenture India
	Speakers	<b>Mr Vijay Sai Pratap</b> Co-Founder & CEO, Gramvaani  <b>Ms Diba Saha</b> Deputy General Manager Digital and Transaction Banking State of Bank of India  <b>Mr Saurabh Johri</b> SVP Strategic Planning & Investor Relations, Jayalakshmi Financial Services Ltd

1615 - 1645 Hrs Tea / Coffee

**1645 - 1745 Hrs: Session – 4: Great Expectations – Scaling the consumption economy**

*The ecommerce boom has resulted in several shifts in the business landscape anchored on convenience at first, later focusing on experience, bringing about consumer inclusion from non-metro and rural regions. Indian ecommerce has so far focused on customer acquisition, gross merchandise value (GMV) growth and scale, funded often through heavy discounts. Today the conversation shifts to opportunities and constraints impacting the sustainability of the ecommerce model. As an area driving growth for the Indian economy, scale and sustainability for eCommerce may be vital for the economy itself.*

1645 Hrs	Opening Remarks by Session Moderator	<b>Ms Debarati Sen</b> Managing Director 3M India Limited
	Speakers	<b>Mr Kaveesh Chawla</b> Director Category Leadership Amazon Seller Services Pvt Ltd  <b>Mr Surya Kant Pandey</b> Managing Director & CEO Kimberly Clark India Region  <b>Mr Aftab Ullah</b> Chief Operating Officer L&T Information Technology Ltd  <b>Ms Rama Bijapurkar</b> Thought leader on Market Strategy

**1750 – 1835 Hrs: CII – 3M Student Challenge**

*The session highlights the top 3 of the CII-3M student challenge for innovation in the areas of innovation for national missions. The session concludes with an experience sharing by a renowned personality with a unique blend of artistic talent and technology expertise.*

1755 – 1830 Hrs	Student Presentations	Finalists – CII-3M Student Challenge
1830 – 1835 Hrs	Award ceremony	<b>Ms Debarati Sen</b> Managing Director 3M India Limited
1835 – 1837	Jet Airways Lucky Draw	
1837 – 1850	<b>Session Break for Banquet Session -- Networking time</b>	

**1855 – 2015 Hrs: A Guru's take on culture of intelligence**

Introduction by

**Mr Kamal Bali**  
Chairman  
CII Karnataka State Council

Discourse on Culture of Intelligence

**Sadhguru**  
Founder  
Isha Foundation

**Q&A**

**2015 Hrs Dinner**

**Day II: 14<sup>th</sup> July 2017**

**0930 - 1030 Hrs**

**Day II - Inaugural Session**

Opening Remarks by

**Mr Kris Gopalakrishnan**  
Past President CII &  
Chairman, India Innovation Summit

Special Address

**Dr Gopichand Katragadda**  
Group CTO  
Tata Sons Ltd.

Keynote Address

**Ms Rama Bijapurkar**  
Thought leader on Market Strategy

Address by Guest of Honor

**Shri Priyank Kharge**  
Minister for Information Technology,  
Bio-Technology, Science and  
Technology & Tourism  
Government of Karnataka

**1030 - 1045 Hrs Tea / Coffee**

**1045 - 1135 Hrs: Session- 5: Panel discussion on Society and Innovation**

*The panel explores the impact of different innovations on society, throwing light on beliefs, values and practices rooted in a nation's culture. The concept of identity, the need for privacy and the strife for equality are important social and cultural dimensions for building a national wealth around innovation. The cross-border nature of economic activities, the connected nature of digital societies and the local identity of sub cultures and ethnic groups present a melting pot of divergent views on the role of innovation in society.*

Opening Remarks by  
Session Moderator

**Mr Niklas Gustafsson**  
Chief Sustainability Officer  
Volvo Group, Sweden

Speakers

**Dr Rajiv Kumar**  
Director  
Pahle India Foundation

**Dr Pavan Mamidi**  
Co-Director  
CESS Nuffield-Flame University

**Prof. Shailendra Mehta**  
Vice Chancellor  
MICA

**1140 - 1230 Hrs: Session-6: Cure for All – A bridge too far?**

*One in three persons diagnosed with the disease do not survive beyond five years. This leaves a little scope for developing insights about the disease, the possible diagnosis and what works best for who. For instance, let us say, a drug has been found to be effective in treating relatively rare strain of cancer. The medicine not only has a significantly higher success rate than medicines for other cancers but also far fewer side effects because its potency is trained on specific cancer cells. The rise of personalized/ precision medicine is revolutionizing the way doctors and pharmaceutical companies approach diseases. Using genetic sequencing, medical professionals are now able to separate people with similar symptoms into far narrower groups and target medicines at them. Which could perhaps translate into: the doctor cures, the self-heals.*

Opening Remarks by Session Moderator

**Mr Dileep Mangsuli**  
Chief Technology Officer  
GE Healthcare

Speakers

**Dr Charit Bhograj**  
Founder, Tricog

**Mr Rohit Kumar Pandey**  
Co-founder & CEO, SigTuple

**Manjunath Ramarao**  
Group Director and Head  
Disease Sciences and Technology  
Biocon BMS

**Dr. Taslimarif Saiyed**  
CEO and Director, Centre for Cellular  
and Molecular Platforms

**1235 – 1330 Hours: Session – 7: Learning to unlearn – A digital immigrant’s dilemma**

*For once we can believe that technology can change the world since education and learning industry has embraced technology. New skills and passion for constant learning are becoming increasingly rewarding. A new ecosystem is greatly impacting and, in some cases, redefining, established systems and institutions. In its report, Understanding Knowledge Societies, the United Nations describes knowledge economies as those societies in which information and the creation of knowledge have replaced industrial production as the main contributor to GDP. To multiply the wealth of nations, this session discusses how businesses and governments can integrate ICT into their core processes to increase efficiency, expand the scope and reach their services and improve productivity.*

Opening Remarks by Session Moderator

**Mr Ajay Nanavati**  
President  
Grey Gurus Management Advisors LLP

Speakers

**Prof P D Jose**  
Professor, Strategy and  
Chairman, MOOCs, IIM Bangalore

**Dr Vikas Vazhayil**  
NIHMAS and IIIT Bangalore

**Mr Srinivasa Addepalli**  
Founder, Global Gyan

1330-1430 Hrs Lunch

**1430 -1530 Hrs: Session - 8: Framing Innovation – A new state diplomacy**

*The innovation framework of a nation is at the core of wealth creation paradigm for any state. The need for policy enablement for public good and its balancing act with protecting competitiveness of the industry gives rise to many fissures in international relations. This clash of national interest with international trade results in clash of patents, trade policies and tax regimes and it is this fine act of diplomacy which drives the nation's innovation framework. The session analyses the social, moral and legal aspects of this framework as well as the business imperatives to bring out an informed and unbiased view.*

Opening Remarks by Session Moderator **Ms Aroona Bondal**  
Associate Partner  
Kapil Sapra & Associates

Speakers **Mr Arvind Tiwari**  
IoT Evangelist  
SangEnnovate

**Ms Rajeshwari Hariharan**  
Founder  
Rajeshwari & Associates

**1535- 1605 Hrs: Valedictory Session**
